

Recommendation Letter

Chrysostomos Koumides

To whom it may concern,

I am Mr. [Eric Boutros](#), the CEO of [Soft Surge Ltd](#). I am writing this letter as a formal recommendation for the above-mentioned applicant.

Chrysostomos did his summer internship with us with amazing levels of energy and appetite to learn and progress in the field of software development. He possesses an extremely positive attitude and has an aptitude of understanding a task and trying hard to achieve it, even with a minimal amount of training. He did an excellent job of implementing the new design of our website and any other tasks given to him by our team.

We are sorry to see him leave but we wish him well in all his future endeavors, and that he can fulfill his very high potential.

With great thanks,

Eric Boutros
